\$9.95 a Month

24/7/365 Priority Service

Investing in our Tank Protection Plan is investing in your own comfort and peace of mind.

Oil Tank Lifetime Protection Plan 9/01/2021

SHIPLEY ENERGY [hereinafter referred to as "Shipley"] Agrees to provide services as outlined herein. This Agreement covers the specified equipment at the property so noted on the customer account and becomes valid on the date indicated on the invoice. The price & coverage as outline in this Agreement is subject to change at the anniversary date of the Agreement. This Agreement supersedes all previous Tank Protection Plan Agreements.

1. This Agreement extends only to replacement or repair as Shipley deems necessary and proper, and does not extend to the cost of the removal or replacement of any part of the building necessitated by the oil tank repair. This Agreement covers the oil line and vent/fill pipe.

2. This Agreement does not apply to leakage or spillage from the heating oil tank or any part of the heating system. In no event will Shipley be liable for incidental or consequential damages relating to or arising from any leakage, spillage, or other escape of heating oil from the tank or any part of the heating system for any reason whatsoever, including frozen fuel lines, acts of nature or any environmental damage that arises out of leaks or spills.

3. This Agreement is not available for tanks having a capacity greater than 330 gallons or for any underground tank.

4. This Agreement will automatically renew every twelve [12] months unless either the customer or Shipley gives the other party written notice of cancellation prior to the renewal date. Renewal date is twelve [12] months from the start date of the Agreement.

5. This Agreement covers full replacement and repair starting from the date of coverage. No refund in part or whole will be given at any time. This Agreement does not cover repair due to or as a result of accounts held for non-payment.

6. The customer must make provisions for Shipley to access, and if necessary, remove and replace the tank, without causing damage to the residence. If full access is not available for tank removal and replacement, the customer is responsible for providing access.
